MINING, BUSINESS AND STOCKS.

CAMP OF PIOCHE WANTS AIR SHIP \$ SILVER. - - 51%

Pioche Commercial Club Telegraphs To Salt Lake That it Favors Plan To Advertise Its Town.

Word was received from Pioche, Nevada, this morning that the camp favors the holding of an airship carhival at that place and the securing of the American aviator Glenn Curtiss to do the honors of propelling a heavier than air machine through space above

Pioche.

The matter of giving the carnival was started several days ago when a brokerage house in Boston sent word to the office of the Godbe brothers in Salt Lake that it had subscribed \$500 toward a \$2,000 fund for the giving of the exhibition. The plan of advertising the old camp appealed to many of the local people here who are heavily interested in Pioche.

The following telegram was received this morning at the Godbe office from the Pioche Commercial club:

"Ready to act. Proposition favorably received. Send further details."

A telegram has been sent to Boston for further details of the event and it is now believed more than probable that the flight of an aviator will take place at Pioche.

As the matter is taken up by the Commercial club; it is believed that the

that the flight of an aviator will take place at Ploche.

As the matter is taken up by the Commercial club it is believed that it is more of a movement on the part of the community than by the mining interests. The camp is just on the verge of considerable activity and the people of that place believe that a flying machine exhibition would be a great treat to the people of that section of Nevada and attract considerable attention.

SIOUX IS SOME STRONGER.

Local Mining Exchange Grows Slower With Prices Unchanged.

Activity on the local exchange was at a low ebb this morning and transac-tions dropped to the duli and uninterwhile there was a good number of sell-ing orders. Since the first of the year money has been slow about coming in-to the market. With real estate, irrigation schemes and agricultural interests as active as they are at present, it is declared that it will be some time before there will be the attractiveness mining investments that there has

On the market this morning Colum-bus Consolidated sold at 84 and 85 cents This, it is asserted, is a price which would not pay the actual valuation of the power plant, mill and equipment of the property, not counting that the mine is now shipping in the neighborhood of \$30,000 worth of ore each month. East Tintic Development, which is de-clared to be better than paying its way and has a force of 25 men at work, sold for 13 cents. Iron Blossom was firm

About the only stock that developed ing. The stock has been gradually going up for several days. Whether it is a market manipulation or the actual interest that the public is taking in this promising Tintic mine, remains to be

The total number of shares disposed of on the local exchange this morning was 25,100, while the amount represented by the transactions was \$10,148.25. Although a number of stocks were quoted on the curb market this morning, there were no sales. American Flag was offered at \$2 and Daly was offered at \$1.10. Bingham Central Standard received a bid of 23 cents.

GREAT TONNAGE OF BINGHAM. Will be Able to Handle 20,000 Tons of

Ore a Day on Railroad,

Although Bingham is but 18 miles from Salt Lake City few people appreciate the enormous tonnage of ore that is being taken out of the mountains each day at that place and shipped on the railroad. During the month of May of this year the Denver & Rio Grande railroad, which is known as the best paying branch railroad in the werld, handled 15,000 cars of ore, This approximates 388,000 tons or 776,000,000 pounds, On June 21 was recorded the heaviest shipments in the history of the road, over 38,900,000 pounds of ore being consigned from the Cuprum yards within 24 hours. With increased facilities, the road will be able to handle 20,000 tons daily without difficulty.

The incoming shipments to the camp are also enormous. Each day there is Ore a Day on Railroad,

The incoming shipments to the camp are also enormous. Each day there is 15,000 pounds of powder shipped into the camp, thousands of feet of lumber and hundreds of tons of coal. Then there is a large amount of machinery and merchandise amounting to thousands of tons a year. It requires 60 engines and train crews to handle the enormous shipping of the canyon.

EMMA COPPER STARTS WORK ON PROPERTY

Men Have Been Put to Work on Montezuma Claim of Company in The Alta District.

After having its property all but sold on a judgment, the Emma Corper ompany has been brought to life with bang. It has paid off its debts and force of men was put at work at the property in the Alta district yesterday. ecy. W. M. Wantland of the company returned from Alta this morning, after

setting the men to work.

The work on the property, it is declared, will be in the nature of prospecting for several weeks, after which time a plan of development will be laid out. At present a prospecting tunnel is being run in the Montezuma claim. The tunnel is being sent in on a contact of the blue and white lime and from the outcroppings on the surface it is believed that within the next 20 to 25 feet ore will be encountered. From the outeroppings and the formati the tunnel it is believed that the prospecting will lead to the source of the Old Emma one body. It is contended that there has been but little prospecting in that portion of the company's property and some good things are ex-

The Emma property consists of 11 claims, the Cohen, Dickman, Last Chance, Savage, Montezuma, Hiawatha, Buffalo, Buffalo, No. 1, Good Luck and Allegan.

of the company to materially increase he present force. The company has found considerable good ore in the property in the past and it is believed that with systematic development work some good ore bodies

CONCENTRATES.

Jesse Fox of the Iron Canyon Gold Mines company has just returned from Battle Mountain. Nev., where there is considerable excitement over the fine picture rock that is being taken from the Nevada-Onsaha Mining company property in Philadelphia canyon, just over the ridge from the Iron canyon mines During his visit to the atrice, Mr. Fox declares that Herriman, geologist for the Union Pacific railroad, who was sent to examine the property for the railroad officials who own it, was greatly excited over the display of rich stuff. In fact, it is said, he could only make exchamations and would not venture an opinion. The property is

Although the Cumberland Ely Copper company has remained idle since July I, when it closed on account of the strike, it has produced 1,000,000 pounds of copper a month for the past two months from concentrates it had stored. Through its three-righths ownership in the smelter, and one-half interest in the Nevada. Northern railroad, it receives about \$650,000 a year. When the copper from the company has been marketed it will not owe a cent and will have \$500,000 in the bank. 000 in the bank,

Frank P. Swindier, well known as a nining expert, is now making an examination of the St. Lawrence mine, on Mount Washington, near Blackhorse, Nev., probably in the interests of some large corporation figuring on purchas-ing it. The mine was recently ex-amined by C. E. Allen and J. Fewson Smith, representing the United States Smelting, Refining & Mining company.

Under the latest ruling of the United States, mineral claims can no longer be held from year to year by relocation. Where an individual or company has failed to do the assessment work and allowed the property to lapse, they are barred from relocating the property for

According to Manager Solon Spiro the Little Bell mine at Park City is shipping from 350 to 400 tons of ore a month, taken out in pushing the development work. Good ore bodies are being developed on the 70-foot level of the winze from the 700-foot level of the

A report from New York says that on A report from New York says that on Oct, 6, a meeting of the directors of the Nevada Consolidated company will be held at which it is probable that a quarterly dividend of 50 cents will be declared. The dividend will be the initial one. The quarterly report issued up to June 30 last shows that the company is able to pay a dividend.

AMONG THE BEDOUINS.

Homer Davenport Describes the Ceremony Which Made Him a Prince's Brother.

Homer Davenport went into the Syrian desert to buy Arabian horses, and there he met Akmet Haffez, prince of the Bedouins. In the Bohemian for September, Mr. Davenport describes the high honor conferred upon him by

the prince.

And at last, as though he were yet afraid that he had not shown enough friendship to his American friend, this big-hearted chief conferred on Mr. Davenport the highest honor within a Bedouin's power. Mr. Davenport gives the following vivid description of the

queer ceremony:

"I hope to succeed in impressing the reader with the very fine nobility of character of Akmet Haffez. My friendship with him and my admiration for him began at our first meeting in Aleppo, and each day made both stronger. And now I was to come into close re-lations with him. The morning after the mare became mine we were to start on a visit to Shelkh Ali, and just

start on a visit to Shelkh Ali, and just before we mounted I went through the ceremony which made me his brother.

"Neither of us had brothers, and so we agreed to follow out the old customs of the Bedouins and take the fraternal piedge. I first treated the matter a little too frivolously, but the Bedouins were very solemn.

"Standing at one side of the tent, in the presence of many witnesses, we

"Standing at one side of the tent, in the presence of many witnesses, we held up our right hands and with our left clasped together repeated the pledge. Akmet Haffez began with the words: 'Wallah! Wallah!' ('O God! My God') which I repeated after him. 'Wallah! Wallah! Wallah!' Tillah! Tillah! Billah! Billah! Tillah! Tillah! Chanted the old Bedouin. 'Akhwan, akhwan, el yom wa bookra wa l'at abad, akwan.' ('By God and through God, brothers, today and tomorroy and forever, brothers!') "I feit nothing of frivolity now, and as I grasped his hand and took the oath, my eyes were moist. After it was over, he asked how I felt now that I was the brother of a brown old man who ate with his hands. I replied that I felt no change: that we had apparently always been brothers, whereupon he hegan to cry.

"Who knew, he asked, but that we had been through a similar ceremony that God himself had performed centuries ago on some other planet?"

NOT A JOB FOR KANSAS EDITOR.

NOT A JOB FOR KANSAS EDITOR.

Some one sent us for publication something about sand burrs and church. We have no idea who wrote the article. We must know who writes an article or we will not publish it. In this case, we could not do so unless we also published the writer's name, for it is none of the editor's husiness whether good order prevails in church or not. It is the minister who has the job of keeping order in church, and not the editor; when the minister can't keep order, City Marshal Roberts is the man to call on for help, and not the editor,—Chase Register.

STOCKS IRREGULAR THROUGHOUT DAY

New York, Oct. I .- The opening stock market today was irregular within a narrow compass although the dealings were active. Atchison was a feature with a rise of a point and Pacific Mail advanced 1% and Canadian Pacific 2. Chesapeake & Ohio declined %

advanced 1% and Canadian Pacific 2. Chesapeake & Ohlo declined %.

Active stocks moved within a narrow range, but showed a tendency to heaviness, most of the leaders ruling fractionally below vesterday's close during the first hour. There was a good inquiry for many of the minor specialities. Pacific Telephone & Telegraph, which was dealt in for the first time on the exchange jumped from \$10.35\%. Laakawanna gained \$5 points, Pacific Mail 3. American Car preferred 18%, Reading and Interborough-Metropolitan 1% and People's Gas, International Paper preferred. International Harvester and Mercantile Marine preferred 1. Chicago, 8t. Paul, Minneapolis & Omaha decimed 4 points, Chicago & Alton 1\%. and Pennsylvanta and Consolidated Gas 1. There was a brisk rally before the end of the hour.

The coalera became notably strong, Reading rising 2, Delaware & Hudson 1\%, and Lackawanna 15. Atchison's gain was stretched to 1\%. Amaigamated Copper advanced 1\%, and Sloss-Sheffield Steel 1\%. United States Steel touched \$9\%. Illinois Central declined 1.

Bonds were irregular.

Speculative operations were congested in United States Steel touched \$9\%. Illinois Central declined 1.

Bonds were irregular.

Speculative operations were congested in United States Steel for a time. Large lots of the stock were bought at steadily rising prices until it touched \$1\%. a gain of 2 points. The railroad list did not respond, selling orders coming out which drove Reading back about a point and the Pacifics large fractions. American Smeiting after long neglect by the bulls, was pushed up 2 points. Texas & Pacific advanced 1.

There was nothing of interest to late trading, which was very dull until a

bulls, was pushed up 2 points, Pexas & Pacific advanced 1.

There was nothing of interest to late trading, which was very dull until a further advance in United States Steel to 31% stirred some activity. Westinghouse Electric lost a point.

The market closed rather irregular. Canadian Pacific rose 3, American Beet Sugar 2% and Duluth. South Shore and Atlantic preferred and Interborough-Metropolitan 2. Prices fell back. Union Pacific fell a point below yesterday's prices. Lake Eric and Western preferred jumped 4½. United States Steel was then pushed up again to 96%. Interborough-Metropolitan preferred rose 2% and some recovery in the general list ensued.

AUSTRALIA.

Sydney, N. S. W., Oct. 1.—The dispute between the wool buyers and brokers, which has interfered with the annual wool sales, has been temporarily settled and the growers have resolved to resume the sales on Oct. 5 under the former conditions, on the understanding that a joint commission shall endeavor, during the Christmas recess, to frame a set of rules acceptable to the disputants.

LONDON. LONDON.

London, Sept. 30.—A miscellaneous selection of 9,38 bales was offered at the wool auction sales today. Competition was brisk and prices ruled firm. Continental buyers were specially eager for scoured and Americans paid high prices for cross-breds and light merinos. The sales will close tomorrow.

PRODUCE.

CHICAGO.

Chicago. Oct. L.—The wheat market was still strong today despite the elimination of the September delivery, trading in which ended in a whirlwind finish yesterday with a 14-cent advance. Shorts were fairly active bidders for the December option and for a time offerings were light. A good cash demand and an advance of % to %d in the price of wheat at Liverpool inspired the buying. Prices at the opening were ke % to %W. higher. December being at 1.00% to 1.00% Later the price advanced to 1.00% M. Sec.

1.00%. Later the price advanced to 1.00% of 5.

Front-taking caused heaviness in the corn market early in the day. Trading was light on account of the absence of demand. Favorable weather for the new crop was the chief depressing influence. December opened a shade lower to a shade higher, at 57% to 58, advanced to 58% and then sold off again to 57%. Notwithstanding larger receipts than had been expected, sentiment in the oats pit was somewhat bullish on account of buying by cash interests. December opened unchanged to a shade higher at 5% to 25% and sold up to 35% of 29.

Provisions were strong on account of he buying of lard by local packers, rices at the start were a shade to Ec.

higher.
